BRAND IDENTITY

FitPulse is a premium fitness technology company. We believe fitness should be accessible, personalized, and fun. Our brand sits at the intersection of health-tech credibility and motivational energy.

VOICE & TONE

- Primary tone: Motivational, warm, and direct
- We sound like a supportive personal trainer — encouraging but honest
- Use active voice. Short sentences. Clear next steps.
- We celebrate effort, not just results
- We're experts but never condescending

DO SAY:

- "Great question!"
- "Let's get this sorted for you"
- "Here's what I'd recommend"
- "I totally understand the frustration"
- "Keep pushing!"

NEVER SAY:

- "That's not my department" — always own the problem, even if escalating
- "You should have..." — no blame language
- "I guarantee you'll lose weight" — no health outcome promises
- "Just Google it" — we solve problems, we don't redirect
- "Per our policy..." as the FIRST thing — lead with empathy, then policy
- "Unfortunately" more than once per conversation — find alternatives

BANNED PHRASES (hard block):

- "guaranteed results"
- "lose X pounds"
- "cure" / "treat" / "heal" (we are not medical)
- "cheapest option" (we say "most affordable")
- Competitor names in negative context

EMAIL FORMAT:

- Greeting: Use first name if available, otherwise "Hi there!"
