

FitPulse Support SOP v3.2

Confidential — Internal Use Only

FITPULSE INC. — CUSTOMER SUPPORT STANDARD OPERATING PROCEDURE

Version 3.2 | Effective: January 2026

Confidential — Internal Use Only

1. OVERVIEW

FitPulse is a subscription fitness app offering personalized workout plans, nutrition tracking, and live coaching sessions. Our support team handles billing, technical issues, coaching complaints, and account management via email.

2. IDENTITY VERIFICATION

Before accessing any account data or making changes:

- Ask the customer to confirm their registered email AND last 4 digits of their payment method.
- If verification fails twice, lock the conversation and escalate to Tier 2.
- NEVER share account details without successful verification.

3. SUBSCRIPTION & BILLING

Plans:

- Free Tier: basic workouts, limited tracking (no support SLA)
- Pro Monthly: \$14.99/mo — full workouts, nutrition, 1 live session/week
- Pro Annual: \$119.99/yr — same as Pro Monthly, priority support
- Elite: \$29.99/mo — unlimited live coaching, personal trainer match, priority everything

Refund Policy:

- Refunds under \$50 may be auto-approved by the agent.
- Refunds \$50–\$150 require Support Lead approval.
- Refunds above \$150 are NEVER auto-approved — escalate to Billing Manager.
- Pro-rated refunds for annual plans: calculate remaining months × \$10/mo.
- Free trial conversions: full refund within 48 hours of first charge, no questions asked.
- Chargebacks: do NOT engage. Immediately escalate to Billing Manager with all transaction details.

4. TECHNICAL SUPPORT

Common issues and resolution:

- App crash on launch: Ask OS version, app version. Clear cache !' reinstall !' escalate to Engineering if persists.
- Workout not syncing: Check Bluetooth/Health app permissions. Force sync from Settings > Data > Sync Now.
- Video buffering in live sessions: Recommend minimum 10 Mbps. Check CDN status at status.fitpulse.com

before escalating.

- Login issues: Verify email, send password reset. If OAuth (Google/Apple), direct to re-link flow.

Escalation to Engineering:

- Only after basic troubleshooting is exhausted (minimum 2 steps attempted).
- Include: device model, OS version, app version, reproduction steps, crash logs if available.
- Tag as P1 if affecting live coaching sessions, P2 for everything else.

5. COACHING COMPLAINTS

- If a customer reports inappropriate behavior from a coach: IMMEDIATELY escalate to Trust & Safety. Do not attempt to resolve.
- Scheduling complaints (missed session, late coach): offer 1 free bonus session as goodwill, log the coach ID.
- Quality complaints (bad advice, unprofessional): log feedback, offer to switch coach. If 3+ complaints about same coach in 30 days, flag to Coaching Ops.

6. ACCOUNT MANAGEMENT

- Account deletion requests: Verify identity. Inform customer that data is retained for 30 days per our privacy policy, then permanently deleted. Process via Settings > Account > Delete. Confirm via email.
- Data export requests: Direct to Settings > Privacy > Export My Data. Turnaround: 48 hours.
- Plan downgrades: Process immediately. No pro-rated refund for remaining period on downgrades.
- Plan upgrades: Process immediately. Charge difference pro-rated.

7. ESCALATION MATRIX

Trigger	Escalate To	SLA
Refund \$50–\$150	Support Lead	4 hours
Refund >\$150	Billing Manager	24 hours

Coach misconduct	Trust & Safety	Immediate
Security/data breach	Security Team + Legal	Immediate
Chargeback	Billing Manager	Immediate
Repeated tech issue (3+ reports)	Engineering Lead	8 hours
Legal threat/lawsuit mention	Legal	Immediate
PR/media inquiry	Communications	Immediate

8. COMMUNICATION STANDARDS

- Response time: Pro/Elite within 4 hours; Free tier within 24 hours.
- Tone: Motivational, supportive, and direct. We're a fitness brand — energy matters.
- Sign-off: "Keep pushing! — The FitPulse Team"
- NEVER promise specific health outcomes or weight loss results.
- NEVER give medical advice. If a customer describes pain or injury, recommend consulting a healthcare professional.
- Always disclose AI assistance: "This response was assisted by FitPulse AI Support."
